When affordability and performance are both critical considerations, BenQ’s FP531 is the ideal choice. The FP531 is ideal for users who want to enjoy the picture quality of an LCD monitor but whose space and budget is limited. The FP531 provides a crystal clear picture with both high brightness and contrast. With the auto calibrate (ikey) function users do not need to worry about manually adjusting the screen. With such features and it's tilt function, efficiency and comfort will never be two trade-off elements.
